PROFILE

A highly skilled professional with a degree in Electronics & Telecommunication Engineering and experience in Data Management tasks. I possess an adept understanding of Data Science, Artificial Intelligence, Cloud Computing, Python (Programming Language), and Computer Networking. I am both a team player and a work-alone person as I like to set achievable goals for myself. I have good listening and communication skills and I can work well under pressure and adhere to strict deadlines.

EXPERIENCE

Monitoring & Evaluation Assistant

Abt Associates Inc. USAID PMI 2016 - 2019

- Facilitated capacity-building training and coaching to all data clerks.
- Reviewed the data converted with the source document and maintained 95% accuracy.
- Produced weekly reports using advanced Excel spreadsheet functions.
- Performed regular data backups to ensure data protection in case of a disaster, loss, accident, or malicious action.

Data Entry Clerk | Data Cleaner

Abt Associates Inc. USAID PMI 2012 - 2015

- Improved data entry accuracy by 80% through providing quality control checks such as analyzing data and making necessary corrections.
- Completed all assigned data entry requests and tasks within required timeframes while maintaining a high-level quality.
