## PROFILE

---

A motivated, adaptable young professional with a keen interest in Software Engineering and dedicated to providing tech-solutions to the society. Having training in Software development, I am looking for a job as a Full Stack Developer in an environment that can contribute to my continuous learning and professional development. I am a reliable team member with excellent communication skills, a diligent mindset and disciplined approach to customers.

---

## HIGHLIGHTED SOFTWARE APPLICATIONS

---

### Health Care | *Web Application*

[Health Link](#)

- A Django project for booking a Medical Doctor's appointment over an internet
- As a Scrum Master I built both the project backend and front end development.

### Awwards | *Web Application*

[Awwards Link](#)

- A project that allows a user to post a project he/she has created and get it reviewed by his/her peers.
  - I built both the project backend and front end developments.
-
